EUnetHTA

CPME- HOPE

What is the role of HTA in innovation in health?

- Fight against obsolete and ineffective methods
- Critically evaluate newer methods
- Use new and evaluated methods on a broader scale

How do you value European collaboration in HTA

- Avoid duplication, triplication of HTA at national or even regional levels
- To push for the best available methods by health services

What should be the role of European collaboration in HTA

- To provide a structure in order to foster a transparent information exchange across borders on what specific subjects national HTA bodies are working on

What do you expect from stakeholder involvement in European HTA and EUnetHTA in particular

- It is important that those who are going to use the guidelines are involved in the HTA process
