

# EUnetHTA PA 2015

European network for  
Health Technology Assessment

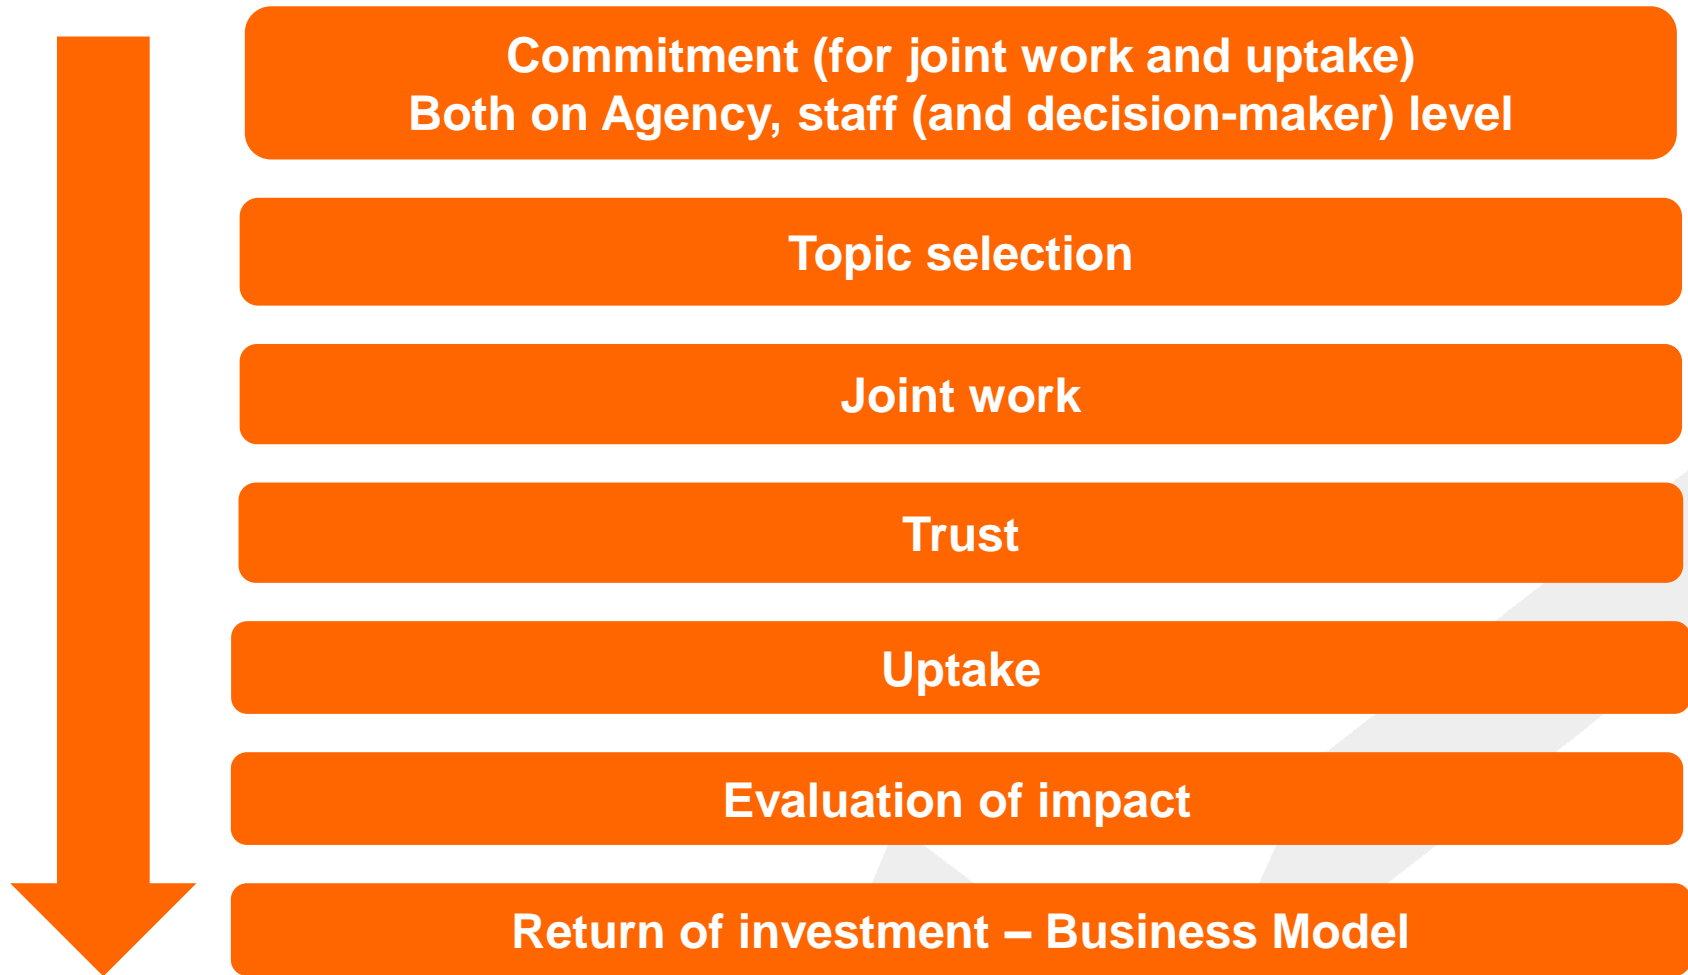

## Group work, group 4

# **Q1: View on suggested objectives by EUnetHTA Executive Committee**

**Increase use, quality and efficiency  
in HTA production in Europe**

- **Agree to the operational objectives**
- **Miss the "quality" aspect**
- **Agree to the "features of the system"**
  
- **Discussion about Concepts and Key Activities**

# Concepts

# Q2: Key Network Activities

- **Success stories**
- **Ambassador (management and payers) / CoP (doers)**
- **Training / Capacity building**
- **Identification of needs and processes**
- **Horizon-scanning for upcoming pharmaceuticals**
- **SOP – Methodology and stakeholder involvement**
- **Quality Control (both process and methods)**
- **National work for all**

Uptake

Evaluation of impact

Return of investment –  
Business Model

**These people are not us alone ! Not just HTA-doers.  
We need other people too.**

# Address “project syndrome”

**Not see EUnetHTA as an extra burden –  
rather use EUnetHTA as extra resources!**
