

CHECKLIST FOR COLLABORATIONS

WP 7/ B – New Technologies

Main intention of EUnetHTA 2010-2012: REDUCTION of DUPLICATION

The **P**lanned and **O**ngoing **P**rojects (=POP) database/list wants to facilitate collaboration.

Possible ways of collaboration within the EUnetHTA Joint Action might be:

- always take a look into the POP database/list before starting a new project;
- wait with starting a new project until the similar project of an other agency is published;
- contact other agencies with similar project(s) and directly ask them to exchange.....
 - inclusion/ exclusion criteria *and/or*
 - the literature search protocol *and/or*
 - findings/abstracts *and/or*
 - literature/studies *and/or*
 - extraction table(s) *and/or*
 - other core elements *and/or*
 - an English executive summary *and/or*
 - the full project report/text (1 language).
- collaborate in the production of a project report (2 authors of 2 different agencies);

Within the next three years we, LBI-HTA, want (we have) to prove that reduction of redundancy really takes place and is increasingly put into practice in Europe. So please inform us (gerda.hinterreiter@hta.lbg.ac.at), when collaborations - and if, in which way – they take/ took place. But we are also interested in possible problems or barriers for collaborations in order to overcome them in future. Knowing one's own position is the basis for orientation and going forward.
