## European network for HTA Joint Action between European Commission and EU Member States

A total of 34 government appointed organisations from 23 EU Member States, Norway and Croatia and a large number of regional agencies and non-for-profit organisations that produce or contribute to HTA

EUnetHTA Joint Action 2010–2012 | [www.eunethta.eu](http://www.eunethta.eu)

### Outline (key take home messages)

- Promote European HTA collaboration?
  - Start with scientific collaboration!
  - Develop practical tools to enable!
  - Bottom-up approach from production level!
  - Have support from government and stakeholders!

### Main objective of Joint Action

The overarching objective of the Joint Action on Health Technology Assessment including work on relative effectiveness of pharmaceuticals is to put into practice an **effective and sustainable HTA collaboration in Europe that brings added value at the European, national and regional level**

eunethta

EUnetHTA | European network for Health Technology Assessment | [www.eunethta.eu](http://www.eunethta.eu) Joint Action 2010–2012

### Strategic position

- All activities of the EUnetHTA Collaboration arise from the premise that its outputs will be used to inform but not mandate the content of national / regional / institutional HTA reports
